1. An amendment has been filed on Dec 7, 2003.
2. Claims under examination are still 8-12.
3. Rejection of claims 8 –12 under 35USC 112, 2<sup>nd</sup> paragraph (see item 4, of office action of September 03, 2003) is now withdrawn.
4. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
5. Claims 8-12 are rejected under 35 U.S.C. 103(a) as being unpatentable over Geibeler et al (US 4678715) in view of (a) Valcke et al (US 5804591) or (b) Hofer et al (US 2003/0148965) and Shafael (EP 1069173).

Please refer to item 6 of same Office action for this rejection.

6. Applicant's arguments filed December 17, 2003 have been fully considered but they are not persuasive.

Applicant's statement (on page 6 of above reference) that "these is no specific teaching in Geibeler that the components can be used together" is not convincing because Geibeler calls these "reactive components" which means that they are capable of reacting with one another. How can they react if they are not brought in contact with one another?

Applicants' argument on page 7, that " the solutions of borax or a sodium salt of lignosulfonic acid have nothing to do with polymerizable solution for impregnating wood" is not persuasive. Valcke uses the said compounds for preservation of wood (see Valcke, abstract; col. 1 lines 10 – 12). Hofer is concerned with protection of wood. Shafael is directed to non-flammable matter and uses the chemicals for wood (col. 5,

lines 5-21). Hence the applicant's argument that "the rejection is based on hindsight reconstruction" is not persuasive.

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
